STATE DEPARTMENT OF AUDIT
Augusta

February 19, 1946

Board of Selectmen
Searsmont,
Maine
Gentlemen:

This letter acknowledges your request for an audit of the books and records of the Town of Searsmont for the 1945 municipal year.

It is practically impossible for us to complete audits for all of the towns who have requested our services this year in sufficient time for our audit report to be published in the Annual Town Report. The 92nd Legislature recognized this probability and enacted a law during its session which states in part, (Chapter 84, Public Laws of 1945):

"Such town report shall include the following excerpts from the last audit report:

- I. Letter of transmittal,
- II. Comments,
- III. Comparative Balance Sheet,
- IV. Statement of Departmental Operating Accounts, in condensed form,
- V. Analysis of Change in Net Surplus or Deficit, for the year,
- VI. Statement that complete audit report is on file in town office."

We are indeed sorry that we are unable to accommodate you, but know that you fully understand our position in the matter. We shall, however, make the report available at the earliest possible date.

Very truly yours,
FRED M. BERRY
State Auditor

Board of Selectmen
Searsmont,
Maine

Gentlemen:

In accordance with Chapter 16, Section 3, Revised Statutes of 1944 and at your request, the records of the town of Searsmont have been audited for the period February 4, 1944 to February 3, 1945 inclusive.

Our examination was made in accordance with generally accepted auditing standards applicable in the circumstances and included all procedures which we considered necessary. Insofar as we can ascertain within the scope of our examination, the result discloses that the financial transactions of this town have been satisfactorily handled.

Comments and schedules prepared by Auditor Hawes are incorporated in this report. These should prove of interest to you.

All of which is respectfully submitted.

Very truly yours,

FRED M. BERRY
State Auditor

COMMENTS

To: Fred M. Berry, State Auditor
From: Carl G. Hawes, Auditor
Re: Audit of the Town of Searsmont

February 4, 1944 to February 3, 1945

An examination has been completed of the books of account and records of the Town of Searsmont for the Municipal year ended February 3, 1945.

Exhibits and schedules are submitted which, in our opinion, properly reflect the financial status of the town.

Treasurer

All receipts as recorded were examined and found to have been correctly entered in the cash book. Deposits covering the receipts were checked to the bank statements and all monies received had been deposited in the bank.

Expenditures were made by check from warrants drawn by the Selectmen.

The cash balance reconciled with the bank statement at the close of the municipal year.

All recorded receipts on tax liens were found to have been applied against the proper items, while tax liens remaining unpaid and on file were examined in detail.

Tax Collector

The 1944 tax commitment was compared with the records of the Assessors and after an adjustment of \$.54 was made, found in agreement. This commitment was accounted for by cash paid the Treasurer, abatements and discounts, or unpaid taxes as reflected on the records of the Collector.

Payments received and abatements allowed on prior years' unpaid taxes appeared to have been applied against the proper accounts.

Excise tax collections were checked from the copies of the receipts and the amounts specified had been deposited with the Treasurer.

Selectmen

The records of the Selectmen were found to be in very good condition with invoices and payrolls on file to substantiate expenditures made.

General

The outstanding note of \$750 was paid in full from the appropriation made at town meeting.

A \$3,000 note was issued during the year for the purchase of a tractor. This note, which was verified with the holder, remained outstanding at the close of the year.

Verification to the extent deemed necessary was made of the asset and liability accounts.

(Signed) **CARL G. HAWES**
Auditor

PUBLIC HEALTH NURSE

World War II has ended but the war being waged against diseases will never end. It is one continuous struggle and only by education and cooperation of the entire population can we ever hope to approach a maximum healthy community. However, we have made a good stride toward such a goal through the health activities of the past year.

The following is a brief summary of the report of the Public Health Nurse for the year 1945:

During the year, 28 visits have been made to the town. While in your community, your Public Health Nurse made 15 visits to expectant mothers; 39 visits to mothers of infants and 38 visits to mothers of pre-school children. 4 visits have been made to children with crippling conditions and 1 child was admitted to the Crippled Children's Services.

Schools have been visited and problems discussed with the teachers. 37 children were given the Tuberculin Patch test and homes were visited regarding the positive reactions.

1 Child Health Conference was held. 11 infants and preschool children attended. 6 were given immunizations against diphtheria.

At this time the Public Health Nurse wishes to thank the officials of the town, Superintendent of Schools and teachers and others who helped for their cooperation through the year.

Let us not forget that more work can be accomplished through the cooperation and the establishment of a Health Council to assist in interpreting the Public Health Program to the community in order to have it adequately supported and used.

Let us plan a bigger and better Health program in your town in 1946.

Respectfully submitted,
MARION YOUNG R. N.

Mr. Wyman G. Drinkwater,
Chairman, Selectmen of Searsmont,
R. F. D. No. 1,
Union, Maine

Dear Mr. Drinkwater:

As you will be needing material for your annual town report soon, we are submitting a brief statement on the blister rust control work conducted in the town of Searsmont in 1945.

Our records show that Searsmont has 1,768 acres of pine bearing lands, necessitating a control area of 7,149 acres. In 1945, your town appropriated \$200.00 to cooperate with the State and Federal Government in this work, resulting in that 990 acres were worked over, from which 9,170 wild Ribes plants were destroyed, at a cost of \$773.44 (Town \$191.52, Fed. Gov. \$581.92). The work was under the direct supervision of our Federal Agent, Mr. H. G. Bradbury, of Belfast.

As there are 3,686 acres of pine bearing lands plus protective strip still needing initial control work, we trust that the town will see fit to raise a similar amount of money for the 1946 Ribes eradication season. All town funds made available will be supplemented on a liberal basis by State and-or Federal funds, as in the past.

Agent Bradbury will call on you in the near future to discuss 1946 work plans.

Very truly yours,

W. O. FROST
Pathologist

I wish to show my appreciation to all those who have taken such an active part in furnishing the Village School with all of the playground equipment, table and benches. These things were a critical need. I also want to take this opportunity to thank all those who have helped with the hot lunch program. This is a fine program and is very much worthwhile from a health standpoint. These things do more toward making better citizens than much of the classroom teaching.

"There are many areas and some whole states where good schools cannot be provided without imposing an undue local tax burden on the citizens. It is essential to provide adequate elementary and secondary schools everywhere, and additional education opportunities for large numbers of people beyond the secondary level. Accordingly, I repeat the proposal of last year's Budget Message that the federal government provide financial aid to assist the states in assuring more nearly equal opportunities for a good education.

"As a part of our total public works program, consideration should be given to the need for providing adequate buildings for schools and other educational institutions. In view of current arrears in the construction of educational facilities, I believe that legislation to authorize grants for educational facilities, to be matched by similar expenditures by state and local authorities, should receive the favorable consideration of the Congress."

President Truman

“At this time many towns are making long-range plans for the improvement of school facilities. In some cases these plans contemplate repairs or additions to present structures. In other cases communities are attempting to formulate a building program which will more adequately serve the educational needs of the children. This active interest is most commendable. It is doubtless unnecessary to point out that this planning should be most thoroughly and carefully done, since in many instances the initial step in construction will, to a large degree, commit the town to an educational pattern for the next fifty or seventy-five years.”

Commissioner Gilson

I have been trying to make plans in my own mind as to what we should do next year. I think we had better stay crowded and make plans for future construction to give our boys and girls the best school privileges we can afford.

Our old building needs: a new foundation, a cellar, furnace heat, flush toilets, a water supply, and wall insulation. What have we? Let's start by raising \$1,000.00 for a new four room modern building.

Last summer we painted the North Searsmont School inside and out, and it is now a very attractive building. I believe everyone is more than satisfied with the work.

STATE DEPARTMENT OF AUDIT

Augusta

January 29, 1947

Board of Selectmen
Searsmont
Maine

Gentlemen:

This letter acknowledges your request for an audit of the books and records of the Town of Searsmont for the 1946-47 fiscal year.

Due to previous commitments, it will be impossible for us to complete the audit prior to the date of your town meeting. However, we shall plan to arrange to do this work as soon as possible thereafter.

It is suggested that due consideration be given to Chapter 84, Section 1 of the Public Laws of 1945, which requires that the town report shall include certain excerpts from the last audit report.

We are indeed sorry that we are unable to accomodate you in this matter, but realize that you fully understand our problem. We shall, however, make the report available at the earliest possible date.

Very truly yours,

FRED M. BERRY
State Auditor

Board of Selectmen
Searsmont
Maine

Gentlemen:

In accordance with Chapter 16, Section 3, Revised Statutes of 1944 and at your request, the records of the Town of Searsmont have been audited by Auditor Carl G. Hawes for the period February 4, 1945 to February 6, 1946 inclusive.

The examination was made in accordance with generally accepted auditing standards applicable in the circumstances and included all procedures which were considered necessary. Insofar as could be ascertained within the scope of the examination, the financial transactions of the town appear to have been appropriately handled.

Exhibits and schedules incorporated in this report impartially present the financial position of the town and the result of its operations for the period designated.

Comments and other data incorporated in this report may prove of interest to you. All of which is respectfully submitted,

Very truly yours,

FRED M. BERRY
State Auditor

COMMENTS**Re: Audit of Accounts — Town of Searsmont****February 4, 1945 to February 6, 1946****Cash**

All receipts as recorded were checked and found to be correctly entered and the cash for same deposited in the bank. Expenditures were made by check from warrants drawn by the Selectmen. The cash balance reconciled with the bank statements at the close of the municipal year.

Taxes Receivable

The 1945 tax commitment was added and compared with the records of the Assessors and found in agreement. The balance due from the Collector on this commitment was represented by a list of unpaid taxes taken from the records. Cash receipts and properly authorized abatements on prior years' unpaid taxes appeared to have been credited against the proper accounts. Verification by mail was made of a representative number of tax accounts.

Tax Liens

Payments received on tax liens were found to have been applied against the proper items and those remaining unpaid were examined.

Notes Payable

During the year, notes outstanding were reduced \$1,000 by appropriations. There was \$2,000 outstanding in notes payable at February 6, 1946.

Surplus

At the close of the year, the unappropriated surplus amounted to \$1,981.11, as compared to an unappropriated surplus of \$950.17 at February 3, 1945. This represented an increase of \$1,030.94 during the year under examination, the detail of which may be found on Exhibit E of this report.

General

The 1945 excise tax receipts numbered 30 to 166 and the 1946 excise tax receipts numbered 1 to 35 were checked from the copies of the receipts and all monies were found to have been deposited with the Treasurer.

Vouchers were test checked to determine that they were just charges, correctly recorded, and charged to the proper account.

ANNUAL REPORT OF THE
PUBLIC HEALTH NURSE

1946

Although the Public Health Nursing Program in your community for the year 1946 suffered an interruption caused by the serious illness of your Public Health Nurse and, also, by the shortage of qualified nurses, we have made every effort to give you the most efficient service possible under these circumstances.

During the time she was on duty the following services were rendered to your community:

18 visits were made to the community. While in the area expectant mothers were visited and encouraged to register early with their physician.

Visits were made to mothers of infants and preschool children in the interest of promoting better health, physically, mentally and socially. Stress was placed on the importance of early protection against the preventable communicable diseases.

Schools were visited and conferences held with the teachers in regard to plans for better school health services. The nurse assisted with a school immunization clinic.

With the splendid help of the Searsmont Health Committee, it was possible for a series of Child Health Conferences to be held. At these conferences infants and preschool children received a physical examination and were protected against whooping cough, diphtheria and tetanus. Mothers were given an opportunity to confer with the conference physician in relation to the health problems of their children.

We regret that Mrs. Young has resigned. However, we've been very fortunate in obtaining the promise of a well qualified public health nurse for our staff early in 1947. She will be assigned to your community.

We feel confident that she, with her preparation and experience, and with the support and interest of the Health Committee, will give your community a progressive and efficient Public Health Nursing Program in 1947.

Our sincere thanks go to the members of the Health Committee, the town officials and school personnel for the cooperation and help during the past year.

Respectfully submitted,

(Mrs.) Lucy C. Hawkins,
Lucy C. Hawkkins, R. N.

January 2, 1947.

Mr. Wyman G. Drinkwater
Chairman, Selectmen of Searsmont,
R. F. D. 1,
Union, Maine.

Dear Mr. Drinkwater:

As the time is approaching when you will be preparing your 1946 town report, we are submitting a brief statement showing the status of blister rust control work in your town.

As you know, blister rust control work is conducted under a cooperative agreement between the State and Federal Governments, in which they cooperate with towns.

According to our records, the town of Searsmont has over 1,700 acres of pine bearing lands, with a protective zone of over 7,000 acres. During the past several years the town has cooperated with the State and Federal Government in blister rust control, the work being under the direct supervision of our Federal Agent, H. G. Bradbury, of Belfast. For the 1946 Ribes eradication season, the town made \$200.00 available for the work. We are pleased to report that the work performed this year completes the initial control work in the town. During the control season, 38,369 wild Ribes plants were removed from 3,751 acres, at a cost of \$1,416.32 (Town \$195.36 Fed. Gov. \$1,220.96). 2,697 acres of the control area in the town have been placed on a maintenance basis; i. e., no further control work will be required for an indefinite number of years. As no reeradication work is needed at this time, no control work is recommended for 1947.

Thanking you for your past cooperation, I am

Very truly yours,

W. O. FROST,

Pathologist.

Raised for repair, as per motion.

The termination of the war did not alleviate the shortage of trained teachers. Teachers have been so poorly paid that for years the demand has far exceeded the annual output. The proposed legislation is destined to encourage candidates for our normal schools. For several years hundreds of pupils in Maine have had no schooling whatever. At present thousands are attending schools in which the teachers have no training or experience. Because we are so far behind in the supply, this shortage bids fair to last, in some degree, for at least ten years. So long as

large towns and cities are in dire need of teachers, the small towns must take the leavings. Local talent is destined to remain our chief source of supply.

The new prospective legislation to raise teachers' salaries makes budgeting this year very difficult. The State department does not know what the subsidy per teacher will be to aid in the salary raise. In any case, the towns share a greater burden. The necessity of a special town meeting is to be avoided, if possible. The burden of my towns is especially acute because they have failed to increase salaries as have many towns. Our raises will therefore be in lump-sum this year to conform to the new legislation, in case it is passed.

On every turn we face demands for better schools, and in all instances we encounter increasing costs. Rest assured that your Superintendent will practice economy, but when a package of paper that once cost fifteen cents, now costs nearly fifty cents, and all other expenses in accordance, his job is not an easy one. And too, the public are making demands that cannot be met. Yet we must gradually improve our school systems. Constantly we must ask ourselves: Are our children worth it?

I regret that my busy days have prevented me from making more acquaintances. May we continue to work together for the good that can come about in no other way.

LEWIS L. GRAY
Superintendent of Schools
